

BURLINGTON PHENOLOGY GUILD

is welcoming new members for the summer and fall sessions!

**Third Saturday of each month*
9 AM - noon
Rock Point, Burlington, Vermont**

These gatherings take place one Saturday a month and are open to anyone who wants to spend more time outside learning about how the earth changes through the seasons. All ages welcome. Each session is led by members of the Guild or by a guest naturalist.

UPCOMING SUMMER/FALL SESSIONS

June 15 - Buttercups to Bedrock: Reading the Landscape with Alicia Daniel, Field Naturalist: Identify summer wildflowers, hike among cliffs and explore geology at a secret shale beach.

July 20 - Beetles, Butterflies and Bees: Explore the interrelationships at work in the micro-world of a summer meadow!

August 17 - Shoreline Paddling and Ecology
Engage in a new perspective of the Lake Shore and its ecology and geology. We might get wet!

September 21 - Foraging the Wild Landscape.
We will explore the edible bounty of the Rock Point site and share a meal!

If you can't join us during the summer—consider rejoining us for the Fall sessions:

September 21 - Foraging the Wild Landscape. (September is summer and fall!)

October 19 - Patterns of Fall Foliage

November 16 - Species on the Move!

December 14 - Hibernation and other Winter Wonders! [*note this is the 2nd Saturday!]

COST: \$50.00 for remainder of year (July-December; six sessions). Contact Kathy Rossman krossman802@gmail.com for sliding fee/scheduling questions.

Registration includes a copy of Mary Holland's book: Naturally Curious.

BURLINGTON GEOGRAPHIC - BURLINGTON HIGH SCHOOL - CROW'S PATH
OUR CURRICULUM MATTERS - ROCK POINT SCHOOL
